

Standard Features & Accessories

All models include

- Commercial styling and construction
 - Built from thick sheets of rugged, heavy-duty stainless steel
 - Double wall construction insulates hood to help keep heat inside and provides for a cooler sidewall
 - Hood is slightly slanted to prevent water from accumulating on top of grill, and provides a sleek style that is synonymous with the Viking name
 - No exposed rotisserie slot to take away from strength of sidewall or allow heat to escape
 - All models can be built into any type of enclosure without the need of an insulated jacket – a Viking **exclusive**
 - Stainless steel landing ledge with solid, welded, seamless finish
 - No assembly required
- Canopy has been designed for seamless fit and finish
- Knobs are cast metal for durability and all bezels match indoor range line
- All outdoor control panel graphics are permanently laser-etched at the factory
- Extra-deep sealed burner box keeps heat contained in burner area, allowing easier temperature maintenance
- Stainless steel flavor-generator plates catch drippings, generate smoke, minimize flare-ups, and allow for better heat control
 - Perforated design allows heat to spread quickly and evenly across entire surface
- Burner flames are visible through perforations, allowing user to visually monitor heat output and adjust to desired level
- Chrome-plated warming rack – reinforced by heavy-duty rack supports – can easily be adjusted to three different positions, allowing use of additional accessory racks
- Rotisseries standard on all Ultra-Premium models; rotisserie system consists of a 15,000 BTU Gourmet-Glo™ infrared rear burner, heavy-duty rotisserie motor, stainless steel 1/2" rotisserie rods, and two rotisserie forks
 - Infrared burner is a reliable, electronically ignited one-piece design
 - Rotisserie rod is mounted on a ball-bearing rod support that provides smooth rotating action; rod is fully enclosed within grill, a Viking **exclusive** feature
 - Rotisserie motor assembly is supported by a rigid mount and is easily attached and removed from the grill for hassle-free cooking and storage
 - No counter balance required due to heavy-duty rotisserie system
- Removable smoker box accommodates wood chips or large wood chunks
 - Hinged design allows easy operation when adding smoker chips
- 12,500 BTU burner underneath can be adjusted for maximum smoking performance
- Smoker box can be replaced with grilling grate for use of entire grill surface
- Numerical thermometer gives precise temperatures for grilling, smoking, and warming
- Easy maintenance and cleanup
 - Extra heavy-duty cooking grids are porcelain-coated to prevent food from easily sticking; virtual non-stick surface creates optimal cooking areas, while also creating an easy-to-clean surface
 - Burners are equipped with stainless steel drip guards to combat burner clog and aid grease management by channeling liquids to the drip tray, assisting in flare-up control
 - Grease Control™ system consists of full-width removable stainless steel drip tray, and individual removable trays within main tray
 - **Exclusive** “trays within a tray” design channels liquids to the precise drip tray location, providing easy cleanup because liquids are contained
 - Stainless steel ball-bearing rollers provide smooth opening of drip tray, while roller stops prevent tray from falling out

Ultra-Premium T-Series
Two-Burner Grill w/TruSear

FINISH DETAILS

- Stainless Steel (SS)
 - Porcelain-coated cooking grids and black knobs.
- Brass Trim Option (BR)—nameplate, handle/brackets, and knob bezels. Brass components have a durable protective coating for maintenance-free normal use.

ORDERING INSTRUCTIONS

You must specify fuel type (“N” or “L”) following model number (VGBQ3002T1NSS). If ordering optional brass trim, specify code at end (VGBQ3002T1NSSBR).

Standard Features & Accessories

VGBQ300 model

- 30"W. w/two grill areas – 3.9 sq. ft. (563 sq. in.)

VGIQ300 model

- TruSear™ infrared burner
 - Located in far left grill burner position
 - Constructed of heavy-duty inconel stainless steel
 - 30,000 BTU high, 17,500 BTU low
 - Intense searing heat caramelizes the outside of food, locking in the food's natural juices and flavors
 - Drippings from food are vaporized from intense heat of TruSear burner, generating flavor and preventing flare-ups
 - Reduced cooking times due to short preheat time and intense infrared heat

T-Series only

- Push-button electronic ignition powered by a 9-volt battery provides a positive, consistent, and continuous spark for easy grill lighting
- 25,000 BTU stainless steel grill burners produce intense heat across entire grilling surface

E-Series only

- EasyLift™ Canopy
 - Built into canopy and hidden from view, provides weight counterbalance when opening and closing canopy for very smooth and easy operation
- Push and turn 120-volt electric ignition system provides a positive, consistent, and continuous spark for easy grill lighting
- Control Panel Illumination

- Dedicated LED lighting above every control knob accentuates grill face and improves nighttime visibility
- Power Porcelain™ Cast Iron Grates
 - Provide improved heating characteristics – cast iron heats up faster and retains heat longer than any other metal
 - The **exclusive** new design discourages flare-ups and improves cleanability
- Industry High 29,000 BTU Stainless Steel U-Shaped Burner constructed from thick stainless with reconfigured burner ports for improved heat coverage
 - Automatic re-ignition system
- Halogen lighting mounted on the inside of canopy provides ample lighting for nighttime grilling

Dimensions & Specifications

CLEARANCE DIMENSIONS & HOOD SWING

Minimum clearances from adjacent combustible construction

1. Maintain a min. of 6" (15.2 cm) from the sides, or a min. of 8" (20.3 cm) from the right side if there is a rotisserie motor, and a min. of 24" (61.0 cm) from the back above the cooking surface to adjacent vertical combustible construction. Do not place grill under unprotected combustible construction.
2. Maintain a min. of 3" (7.6 cm) clearance from the back of the grill with a canopy and a min. of 6" (15.2 cm) from the back of the grill without a canopy to non-combustible construction to allow the lid to open fully and for proper ventilation. (The grill exhausts combustion products and cooking greases to the back.)

Never place the grill where the exhaust is directed at a window, less than 2' (61.0 cm) to combustible material, or any surface that is difficult to clean. Allow at least 6" side clearance to non-combustible construction above the cooking surface for counter space. If using the rotisserie option, the space is essential for motor and skewer clearance. The grill can be placed directly adjacent to combustible and/or non-combustible construction below the cooking surface.

3. When determining a suitable location for the grill, take into account exposure to wind, proximity to traffic paths, and keeping gas supply lines as short as possible. Place the grill only in a well-ventilated area. Never place the

grill in a building, garage, breezeway, shed, or other fully enclosed areas. During heavy use, the grill will produce a lot of smoke; ensure you have adequate room for smoke to dissipate.

4. If using a rear wall, place the electrical service on the right-hand side for the rotisserie motor.

IMPORTANT: Gas fittings, regulator, and installer-supplied shut-off valve must be easily accessible.

Two-Burner Grill

VGIQ300-2RT1
Ultra-Premium T-Series
Two-Burner Grill w/TruSear

Gas inlet and power cord location area

Electrical connection for rotisserie motor (position unit so that the plug is always accessible)

Electrical connection for power supply cord on E-Series to be located on rear wall with a maximum distance of 2' (61.0 cm) beneath solid bottom support.

Countertop typically requires 1/2" wide by 1/2" deep notch cutout on each side of grill. This allows grill CP to sit back properly in the cutout.

*Cabinet Cutout must have a solid bottom to support the full weight of the unit.

**Access Doors sold separately

All models	
Cutout width	28-5/8" (72.7 cm)
Cutout height	10-1/4" (26.0 cm)
Cutout depth	28" (71.1 cm)

UTILITY REQUIREMENTS

GAS

Fixed piping installations

- Check with local gas utility company or with local codes for instructions on installing gas supply lines. All gas connections should be made by a competent technician and in accordance with local codes and or ordinances. In the absence of codes, the installation must comply with the National Fuel Gas Code ANSI Z223.1.
- An installer-supplied gas shut-off valve must be installed in an easily accessible location. All installer-supplied parts must conform to local codes.
- Must be isolated from the gas supply piping system by closing its individual manual shut-off valve during any pressure testing of that system at test pressures equal to or less than 1/2 psi (3.5 kPa).

Natural gas models

- Water column pressure
 - o Operating pressure—4.0" WCP
 - o Supply pressure of 6" – 10" WCP
 - o If incoming pressure exceeds 10" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 7/8" (2.2 cm) flare adapter.

- o If using a Viking GSH12 flexible hose, remove the 1/2" (1.3 cm) flare adapter and attach hose to the 7/8" (2.2 cm) male flare on the regulator assembly.

LP/propane models

- Water column pressure
 - o Operating pressure—10" WCP
 - o Supply pressure of 11" – 14" WCP (for fixed piping installations)
 - o If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 3/8" (0.95) flare adapter.

LP/propane tank installations

- Water column pressure
 - o Operating pressure—10" WCP
- Includes high-capacity hose/regulator assembly for connection to a standard 5-gal./20-lb. (approx. 12" diameter/18"H.) LP/propane gas cylinder equipped with a Type 1, QCC-1 connector
 - o The cylinder connection device must be compatible with the Type 1, QCC-1 connector on the outdoor cooking appliance.
 - o The cylinder must be provided with a shut-off valve terminating in an LP/propane

- gas supply cylinder valve outlet specified.
- o The cylinder supply system must be arranged for vapor withdrawal and provided with a listed OPD (overfilling prevention device).

ELECTRICAL

- T-Series models
 - o 9-volt DC battery for electronic ignition
 - o Rotisserie motor max. amp usage—6.0
- E-Series models
 - o 3' (91.4 cm) power cord supply cord with 3-prong grounded plug attached to grill
 - 120 VAC/60 Hz
 - o Grill max. amp usage
 - VGBQ300—2.1
 - o 2' (61.0 cm) power cord supply cord with 3-prong grounded plug attached to rotisserie motor.
 - 120 VAC/60 Hz
 - o Rotisserie motor max. amp usage—6.0

30"W. Ultra-Premium T-Series/E-Series Gas Grill

✦ Installation Notes & Accessories

Grill Lights

- Light fits all Ultra-Premium grills
- Heavy-duty construction
- Anodized brushed aluminum handle and visor
- 12-volt, 20-watt lamp with 8' electrical cord
- 22" flexible gooseneck with heat-sealed vinyl protective cover
- Unique Viking design allows light to mount securely to rotisserie motor and to be removed quickly for storage

Model	Description	Approx. ship wt. lbs. (kg)
VQL	Grill light	5 (2.3)

SS Grill Grates

- Heavy-duty 3/8" - thick stainless steel

Model	Description	Approx. ship wt. lbs. (kg)
SS2TG	Grill grate set for 30"W. grill	21 (9.5)

Warming Rack

- All grills can accommodate up to three racks (one rack included with all grills)
- Chrome-plated
- Rack provides additional cooking/warming space
- Single rack

Model	Description	Approx. ship wt. lbs. (kg)
WR2TSS	Warming rack for 30"W. grill	5 (2.3)

Rotisserie Basket

- For use with Gourmet-Glo™ rotisserie units
- Heavy-duty stainless steel construction
- Adjustable meat clamps
- Basket allows you to cook different size/shape items without needing to wire, tie, or spear
- Limited lifetime warranty
- Single basket

Model	Description	Approx. ship wt. lbs. (kg)
BQRB306T	6"W. rotisserie basket (for 30"W. grill)	6 (2.7)

Compliance Information

WARRANTY SUMMARY*

- One-year full warranty—complete product
- Lifetime limited warranty—rust through on all stainless steel components, including burners and porcelain grill grates
- Five-year limited warranty—grill burner assemblies, infrared rotisserie burner (on Ultra-Premium model), and porcelain grill grates (under normal household use)
- Ninety-day limited warranty—cosmetic parts such as glass, painted, and decorative items

* For complete warranty see *Use & Care Guide*. Warranty valid on Viking products shipped within the United States and Canada.

Standard Features & Accessories

All models include

- Commercial styling and construction
 - Built from thick sheets of rugged, heavy-duty stainless steel
 - Double wall construction insulates hood to help keep heat inside and provides for a cooler sidewall
 - Hood is slightly slanted to prevent water from accumulating on top of grill, and provides a sleek style that is synonymous with the Viking name
 - No exposed rotisserie slot to take away from strength of sidewall or allow heat to escape
 - All models can be built into any type of enclosure without the need of an insulated jacket – a Viking **exclusive**
 - Stainless steel landing ledge with solid, welded, seamless finish
 - No assembly required
- Canopy has been designed for seamless fit and finish
- Knobs are cast metal for durability and all bezels match indoor range line
- All outdoor control panel graphics are permanently laser-etched at the factory
- Extra-deep sealed burner box keeps heat contained in burner area, allowing easier temperature maintenance
- Stainless steel flavor-generator plates catch drippings, generate smoke, minimize flare-ups, and allow for better heat control
 - Perforated design allows heat to spread quickly and evenly across entire surface
- Burner flames are visible through perforations, allowing user to visually monitor heat output and adjust to desired level
- Chrome-plated warming rack – reinforced by heavy-duty rack supports – can easily be adjusted to three different positions, allowing use of additional accessory racks
- Rotisseries standard on all Ultra-Premium models; rotisserie system consists of a 15,000 BTU Gourmet-Glo™ infrared rear burner, heavy-duty rotisserie motor, stainless steel 1/2" rotisserie rods, and two rotisserie forks
 - Infrared burner is a reliable, electronically ignited one-piece design
 - Rotisserie rod is mounted on a ball-bearing rod support that provides smooth rotating action; rod is fully enclosed within grill, a Viking **exclusive** feature
 - Rotisserie motor assembly is supported by a rigid mount and is easily attached and removed from the grill for hassle-free cooking and storage
 - No counter balance required due to heavy-duty rotisserie system
- Removable smoker box accommodates wood chips or large wood chunks
 - Hinged design allows easy operation when adding smoker chips
- 12,500 BTU burner underneath can be adjusted for maximum smoking performance
- Smoker box can be replaced with grilling grate for use of entire grill surface
- Numerical thermometer gives precise temperatures for grilling, smoking, and warming
- Easy maintenance and cleanup
 - Extra heavy-duty cooking grids are porcelain-coated to prevent food from easily sticking; virtual non-stick surface creates optimal cooking areas, while also creating an easy-to-clean surface
 - Burners are equipped with stainless steel drip guards to combat burner clog and aid grease management by channeling liquids to the drip tray, assisting in flare-up control
 - Grease Control™ system consists of full-width removable stainless steel drip tray, and individual removable trays within main tray
 - **Exclusive** "trays within a tray" design channels liquids to the precise drip tray location, providing easy cleanup because liquids are contained
 - Stainless steel ball-bearing rollers provide smooth opening of drip tray, while roller stops prevent tray from falling out

UTILITY REQUIREMENTS

GAS

Fixed piping installations

- Check with local gas utility company or with local codes for instructions on installing gas supply lines. All gas connections should be made by a competent technician and in accordance with local codes and ordinances. In the absence of codes, the installation must comply with the National Fuel Gas Code ANSI Z223.1.
- An installer-supplied gas shut-off valve must be installed in an easily accessible location. All installer-supplied parts must conform to local codes.
- Must be isolated from the gas supply piping system by closing its individual manual shut-off valve during any pressure testing of that system at test pressures equal to or less than 1/2 psi (3.5 kPa).

Natural gas models

- Water column pressure
 - o Operating pressure—4.0" WCP
 - o Supply pressure of 6" – 14" WCP
 - o If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 7/8" (2.2 cm) flare adapter.

- o If using a Viking GSH12 flexible hose, remove the 1/2" (1.3 cm) flare adapter and attach hose to the 7/8" (2.2 cm) male flare on the regulator assembly.

LP/propane models

- Water column pressure
 - o Operating pressure—10" WCP
 - o Supply pressure of 11" – 14" WCP (for fixed piping installations)
 - o If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 3/8" (0.95) flare adapter.

LP/propane tank installations

- Water column pressure
 - o Operating pressure—10" WCP
- Includes high-capacity hose/regulator assembly for connection to a standard 5-gal./20-lb. (approx. 12" diameter/18"H.) LP/propane gas cylinder equipped with a Type 1, QCC-1 connector
 - o The cylinder connection device must be compatible with the Type 1, QCC-1 connector on the outdoor cooking appliance.
 - o The cylinder must be provided with a shut-off valve terminating in an LP/propane gas supply cylinder valve outlet specified.

- o The cylinder supply system must be arranged for vapor withdrawal and provided with a listed OPD (overfilling prevention device).

ELECTRICAL

- T-Series models
 - o 9-volt DC battery for electronic ignition
 - o 2' (61.0 cm) power cord supply cord with 3-prong grounded plug attached to rotisserie motor.
 - 120 VAC/60 Hz
 - o Rotisserie motor max. amp usage—6.0
- E-Series models
 - o 3' (91.4 cm) power cord supply cord with 3-prong grounded plug attached to grill
 - 120 VAC/60 Hz
 - o Grill max. amp usage
 - VGBQ/VGIO410—2.2
 - VGBQ/VGIO412—2.3
 - o 2' (61.0 cm) power cord supply cord with 3-prong grounded plug attached to rotisserie motor.
 - 120 VAC/60 Hz
 - o Rotisserie motor max. amp usage—6.0

★ Installation Notes & Accessories

Portable Grill Cart

- See individual product pages for more information and additional specifications.

Model	Description	Approx. ship wt. lbs. (kg)
BQC410T1-SS	Ultra-Premium portable cart (for 41"W. grill)	225 (115.8)

Stainless Steel Cabinetry—Grill Bases

- Stainless Steel (SS)
- Must be installed with locally supplied countertop
- See individual product pages (storage section) for more information and additional specifications.

Model	Description	Approx. ship wt. lbs. (kg)
VQBO4121	Grill base (for 41"W. grill)	235 (106.6)
VQWO4120	Grill base w/warming drawer access (for 41"W. grill + 36"W. warming drawer)	226 (102.5)

Gas Conversion Kits

- For field conversions
- Conversions should be performed only by an authorized technician
- Kit includes all hardware necessary for conversion

Model	Description	Approx. ship wt. lbs. (kg)
TNK-VGBQ	Conversion kit—LP/propane to natural	3 (1.2)
TNK-VGIQ	Conversion kit—LP/propane to natural (for TruSear grill)	3 (1.2)
TLPK-VGBQ	Conversion kit—natural to LP/propane	3 (1.2)
TLPK-VGIQ	Conversion kit—natural to LP/propane (for TruSear grill)	3 (1.2)

12' Natural Gas Supply Hose & Quick Disconnect Assembly

- For use with natural gas fuel supply
- For outdoor use only with portable appliances that may be moved for convenience of operation
- Valve in the socket automatically allows full gas flow when the plug is connected, and prevents gas flow when the plug is disconnected
- Kit includes quick disconnect socket with female pipe threads, plug/hose assembly, and adapter to mate with female fitting on the grill (remove for mating hose to male fittings)

Model	Description	Approx. ship wt. lbs. (kg)
GSH12	Supply hose/disconnect assembly	3 (1.4)

Vinyl Covers

- Sturdy, reinforced vinyl exterior; felt-lined interior for protection

Model	Description	Approx. ship wt. lbs. (kg)
CV41T-BI	Cover for 41"W. built-in all grill	8 (3.6)
CV41T-BISB	Cover for 41"W. built-in grill w/side burners	8 (3.6)
CV41T-C	Cover for 41"W. all grill + cart	10 (4.5)
CV41T-CSB	Cover for 41"W. grill w/side burners + cart	10 (4.5)

Grill Lights

- Light fits all Ultra-Premium Grills
- Heavy-duty construction
- Anodized brushed aluminum handle and visor
- 12-volt, 20-watt lamp with 8' electrical cord
- 22" flexible gooseneck with heat-sealed vinyl protective cover
- Unique Viking design allows light to mount securely to rotisserie motor and to be removed quickly for storage
- Case of six lights

Model	Description	Approx. ship wt. lbs. (kg)
VQL	Grill lights	5 (2.3)

OUTDOOR—COOKING

41"W. Ultra-Premium T-Series/E-Series Gas Grill

★ Installation Notes & Accessories

SS Grill Grates

- Heavy-duty 3/8" - thick stainless steel

Model	Description	Approx. ship wt. lbs. (kg)
SS2TG	Grill grate set for 41"W. grill w/side burners	21 (9.5)
SS3TG	Grill grate set for 41"W. all grill	30 (13.5)

Power Porcelain™ Grill Grates

- Heavy-duty porcelain coated cast iron
- Non-stick and easy to clean
- Fits all T and E-Series grill models - must order by grill size

Model	Description	Approx. ship wt. lbs. (kg)
E12G	Grill grate set for 41"W. grill w/side burners	20 (9.5)
E13G	Grill grate set for 41"W. all grill	30 (13.5)

Warming Racks

- Every grill can accommodate up to three racks (one rack included with every grill)
- Chrome-plated
- Rack provides additional cooking/warming space
- Single rack

Model	Description	Approx. ship wt. lbs. (kg)
WR2TSS	Warming rack for 41"W. grill w/side burners	5 (2.3)
WR3TSS	Warming rack for 41"W. all grill	7 (3.2)

Rotisserie Baskets

- For use with Gourmet-Glo™ rotisserie units
- Heavy-duty stainless steel construction
- Adjustable meat clamps
- Basket allows you to cook different size/shape items without needing to wire, tie, or spear
- Limited lifetime warranty
- Single basket

Model	Description	Approx. ship wt. lbs. (kg)
BQRB306T	6"W. rotisserie basket (for 41"W. grill w/side burners)	6 (2.7)
BQRB418T	8"W. rotisserie basket (for 41"W. all grill)	8 (3.6)

Compliance Information

WARRANTY SUMMARY*

- One-year full warranty—complete product
- Lifetime limited warranty—rust through on all stainless steel components, including burners and porcelain grill grates
- Five-year limited warranty—grill burner assemblies, infrared rotisserie burner (on Ultra-Premium model), and porcelain grill grates (under normal household use)
- Ninety-day limited warranty—cosmetic parts such as glass, painted, and decorative items

* For complete warranty see *Use & Care Guide*. Warranty valid on Viking products shipped within the United States and Canada.

Standard Features & Accessories

All models include

- Commercial styling and construction
 - Built from thick sheets of rugged, heavy-duty stainless steel
 - Double wall construction insulates hood to help keep heat inside and provides for a cooler sidewall
 - Hood is slightly slanted to prevent water from accumulating on top of grill, and provides a sleek style that is synonymous with the Viking name
 - No exposed rotisserie slot to take away from strength of sidewall or allow heat to escape
 - All models can be built into any type of enclosure without the need of an insulated jacket – a Viking **exclusive**
 - Stainless steel landing ledge with solid, welded, seamless finish
 - No assembly required
- Canopy has been designed for seamless fit and finish
- Knobs are cast metal for durability and all bezels match indoor range line
- All outdoor control panel graphics are permanently laser-etched at the factory
- Extra-deep sealed burner box keeps heat contained in burner area, allowing easier temperature maintenance
- Stainless steel flavor-generator plates catch drippings, generate smoke, minimize flare-ups, and allow for better heat control
 - Perforated design allows heat to spread quickly and evenly across entire surface
- Burner flames are visible through perforations, allowing user to visually monitor heat output and adjust to desired level
- Chrome-plated warming rack – reinforced by heavy-duty rack supports – can easily be adjusted to three different positions, allowing use of additional accessory racks
- Rotisseries standard on all Ultra-Premium models; rotisserie system consists of a 15,000 BTU Gourmet-Glo™ infrared rear burner, heavy-duty rotisserie motor, stainless steel 1/2" rotisserie rods, and two rotisserie forks
 - Infrared burner is a reliable, electronically ignited one-piece design
 - Rotisserie rod is mounted on a ball-bearing rod support that provides smooth rotating action; rod is fully enclosed within grill, a Viking **exclusive** feature
 - Rotisserie motor assembly is supported by a rigid mount and is easily attached and removed from the grill for hassle-free cooking and storage
 - No counter balance required due to heavy-duty rotisserie system
- Removable smoker box accommodates wood chips or large wood chunks
 - Hinged design allows easy operation when adding smoker chips
- 12,500 BTU burner underneath can be adjusted for maximum smoking performance
- Smoker box can be replaced with grilling grate for use of entire grill surface
- Numerical thermometer gives precise temperatures for grilling, smoking, and warming
- Easy maintenance and cleanup
 - Extra heavy-duty cooking grids are porcelain-coated to prevent food from easily sticking; virtual non-stick surface creates optimal cooking areas, while also creating an easy-to-clean surface
 - Burners are equipped with stainless steel drip guards to combat burner clog and aid grease management by channeling liquids to the drip tray, assisting in flare-up control
 - Grease Control™ system consists of full-width removable stainless steel drip tray, and individual removable trays within main tray
 - **Exclusive** “trays within a tray” design channels liquids to the precise drip tray location, providing easy cleanup because liquids are contained
 - Stainless steel ball-bearing rollers provide smooth opening of drip tray, while roller stops prevent tray from falling out

FINISH DETAILS FOR ALL MODELS

- Stainless Steel (SS)
 - Porcelain-coated cooking grids (and “V” grates on the 412 model’s side burners), and black knobs.
- Brass Trim Option (BR)—nameplate, handle/brackets, and knob bezels. Brass components have a durable protective coating for maintenance-free normal use.

*T-Series & E-Series models look the same, with the exception of the canopy light switch in the upper right corner of the E-Series control panel. (See photo of 30"W. E-Series grill for example.)

ORDERING INSTRUCTIONS

You must specify fuel type (“N” or “L”) following model number (VGBQ5304RT1NSS). If ordering optional brass trim, specify code at end (VGBQ5304RT1NSSBR).

Standard Features & Accessories

All models include

VGBQ530 models

- 53" W. w/four grill areas – 7.8 sq. ft. (1,120 sq. in.)

VGBQ532 models

- 53" W. w/double side burners and three grill areas – 5.8 sq. ft. (836 sq. in.)
- Side burners – a double configuration 15,000 BTU side burners
 - Entirely stainless construction provides excellent durability
 - Removable stainless steel grate support with separately removable stainless steel burner bowls enhances cleanability
 - Removable stainless steel cover provides additional protection from the elements

VGIQ530 models

- 53" W. w/four grill areas – 7.8 sq. ft. (1,120 sq. in.)
- TruSear™ infrared burner
 - Located in far left grill burner position
 - Constructed of heavy-duty inconel stainless steel
 - 30,000 BTU high, 17,500 BTU low

VGIQ532 models

- 53" W. w/double side burners and three grill areas – 5.8 sq. ft. (836 sq. in.)
- Side burners – a double configuration 15,000 BTU side burners
 - Entirely stainless construction provides excellent durability

- Removable stainless steel grate support with separately removable stainless steel burner bowls enhances cleanability
- Removable stainless steel cover provides additional protection from the elements
- Entirely stainless construction provides excellent durability
- Removable stainless steel grate support with separately removable stainless steel burner bowls enhances cleanability
- Removable stainless steel cover provides additional protection from the elements
- TruSear™ infrared burner
 - Located in far left grill burner position
 - Constructed of heavy-duty inconel stainless steel
 - 30,000 BTU high, 17,500 BTU low

T-Series only

- Push-button electronic ignition powered by a 9-volt battery provides a positive, consistent, and continuous spark for easy grill lighting
- 25,000 BTU stainless steel grill burners produce intense searing heat across entire grilling surface
- Heavy-duty, porcelain-coated removable "V" grates provide continuous front-to-rear surface for easy movement of large pots

E-Series only

- EasyLift™ Canopy
 - Built into canopy and hidden from view, provides weight counterbalance when opening and closing canopy for very smooth and easy operation
- Control Panel Illumination
 - Dedicated LED lighting above every control knob accentuates grill face and improves nighttime visibility
- Updated Side Burner Grate Design
 - Spider grate design matches Viking indoor range line
- Power Porcelain™ Cast Iron Grates
 - Provide improved heating characteristics – cast iron heats up faster and retains heat longer than any other metal
 - The **exclusive** new design discourages flare-ups and improves cleanability
- 29,000 BTU Stainless Steel U-Shaped Burner constructed from thick stainless with reconfigured burner ports for improved heat coverage
- Push and turn 120-volt electric ignition system provides a positive, consistent, and continuous spark for easy grill lighting
 - Automatic re-ignition system
 - Halogen lighting mounted on the inside of canopy provides ample lighting for nighttime grilling

Dimensions & Specifications

CLEARANCE DIMENSIONS & HOOD SWING

Minimum clearances

1. Maintain a min. of 6" (15.2 cm) from the sides, or a min. of 8" (20.3 cm) from the right side if there is a rotisserie motor, and a min. of 24" (61.0 cm) from the back above the cooking surface to adjacent vertical combustible construction. Do not place grill under unprotected combustible construction.
2. Maintain a min. of 3" (7.6 cm) clearance from the back of the grill with a canopy and a min. of 6" (15.2 cm) from the back of the grill without a canopy to non-combustible construction to allow the lid to open fully and for proper ventilation. (The grill exhausts combustion products and cooking greases to the back.) Never place the grill where the

exhaust is directed at a window, less than 24" (61.0 cm) to combustible material, or any surface that is difficult to clean. Allow at least 6" side clearance to non-combustible construction above the cooking surface for counter space. If using the rotisserie option, the space is essential for motor and skewer clearance. The grill can be placed directly adjacent to combustible and/or non-combustible construction below the cooking surface.

3. When determining a suitable location for the grill, take into account exposure to wind, proximity to traffic paths, and keeping gas supply lines as short as possible. Place the grill only in a well-ventilated area. Never place the grill in a building, garage, breezeway,

shed, or other fully enclosed areas. During heavy use, the grill will produce a lot of smoke; ensure you have adequate room for smoke to dissipate.

4. If using a rear wall, place the electrical service on the right-hand side for the rotisserie motor.

IMPORTANT: Gas fittings, regulator, and installer-supplied shut-off valve must be easily accessible.

UTILITY
REQUIREMENTS

GAS

Fixed piping installations

- Check with local gas utility company or with local codes for instructions on installing gas supply lines. All gas connections should be made by a competent technician and in accordance with local codes and ordinances. In the absence of codes, the installation must comply with the National Fuel Gas Code ANSI Z223.1.
- An installer-supplied gas shut-off valve must be installed in an easily accessible location. All installer-supplied parts must conform to local codes.
- Must be isolated from the gas supply piping system by closing its individual manual shut-off valve during any pressure testing of that system at test pressures equal to or less than 1/2 psi (3.5 kPa).

Natural gas models

- Water column pressure
 - o Operating pressure—4.0" WCP
 - o Supply pressure of 6" – 14" WCP
 - o If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 7/8" (2.2 cm) flare adapter.

- o If using a Viking GSH12 flexible hose, remove the 1/2" (1.3 cm) flare adapter and attach hose to the 7/8" (2.2 cm) male flare on the regulator assembly.

LP/propane models

- Water column pressure
 - o Operating pressure—10" WCP
 - o Supply pressure of 11" – 14" WCP (for fixed piping installations)
 - o If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 3/8" (0.95) flare adapter.

LP/propane tank installations

- Water column pressure
 - o Operating pressure—10" WCP
- Includes high-capacity hose/regulator assembly for connection to a standard 5-gal./20-lb. (approx. 12" diameter/18"H.) LP/propane gas cylinder equipped with a Type 1, QCC-1 connector
 - o The cylinder connection device must be compatible with the Type 1, QCC-1 connector on the outdoor cooking appliance.
 - o The cylinder must be provided with a shut-off valve terminating in an LP/propane

- gas supply cylinder valve outlet specified.
- o The cylinder supply system must be arranged for vapor withdrawal and provided with a listed OPD (overfilling prevention device).

ELECTRICAL

- T-Series models
 - o 9-volt DC battery for electronic ignition (not included?)
 - o 2' (61.0 cm) power cord supply cord with 3-prong grounded plug attached to rotisserie
 - 120 VAC/60 Hz
 - o Rotisserie motor max. amp usage—6.0
- E-Series models
 - o 3' (91.4 cm) power cord supply cord with 3-prong grounded plug attached to grill
 - 120 VAC/60 Hz
 - o Grill max. amp usage—3.0
 - o 2' (61.0 cm) power cord supply cord with 3-prong grounded plug attached to rotisserie
 - 120 VAC/60 Hz
 - o Rotisserie motor max. amp usage—6.0

CV53T-CSB	Cover for 53"W. grill w/side burners & cart	15 (6.8)

OUTDOOR—COOKING

53"W. Ultra-Premium T-Series/E-Series Gas Grill

✦ Installation Notes & Accessories

Grill Lights

- Light fits all Ultra-Premium Grills
- Heavy-duty construction
- Anodized brushed aluminum handle and visor
- 12-volt, 20-watt lamp with 8' electrical cord
- 22" flexible gooseneck with heat-sealed vinyl protective cover
- Unique Viking design allows light to mount securely to rotisserie motor and to be removed quickly for storage

Model	Description	Approx. ship wt. lbs. (kg)
VQL	Grill lights	5 (2.3)

SS Grill Grates

- Heavy-duty 3/8" - thick stainless steel

Model	Description	Approx. ship wt. lbs. (kg)
SS3TG	Grill grate set for 53"W. grill w/side burners	30 (13.5)
SS4TG	Grill grate set for 53"W. all grill	40 (18.0)

Warming Racks

- Every grill can accommodate up to three racks (one rack included with every grill)
- Chrome-plated
- Rack provides additional cooking/warming space
- Single rack

Model	Description	Approx. ship wt. lbs. (kg)
WR3TSS	Warming rack for 53"W. grill w/side burners	7 (3.2)
WR4TSS	Warming rack for 53"W. all grill	8 (3.6)

Rotisserie Baskets

- For use with Gourmet-Glo™ rotisserie
- Heavy-duty stainless steel construction
- Adjustable meat clamps
- Basket allows you to cook different size/shape items without needing to wire, tie, or spear
- Limited lifetime warranty
- Single basket

Model	Description	Approx. ship wt. lbs. (kg)
BQRB418T	8"W. rotisserie basket (for 53"W. grill w/side burners)	8 (3.6)
BQRB538T	8"W. rotisserie basket (for 53"W. all grill)	10 (4.5)

Compliance Information

WARRANTY SUMMARY*

- One-year full warranty—complete product
- Lifetime limited warranty—rust through on all stainless steel components, including burners and porcelain grates
- Five-year limited warranty—grill burner assemblies, infrared burners, and porcelain grill grates (under normal household use)
- Ninety-day limited warranty—cosmetic parts such as glass, painted, & decorative items

* For complete warranty see *Use & Care Guide*. Warranty valid on Viking products shipped within the United States and Canada.

OUTDOOR—COOKING

53"W. Outdoor Range™ Ultra-Premium Grill Cart with Gas Oven

Standard Features & Accessories

All models include

- Compatibility with 53"W. grills (**sold separately**—see individual product pages)
- Commercial styling and construction
 - No assembly required
 - Built from thick sheets of rugged, heavy-duty, non-rusting stainless steel
- Large inboard 10" solid rubber rear wheels and locking caster front wheels provide maneuverability and stability, and allow unit to fit flush against wall.
- Two stainless steel 16"W. x 24"D. fold-down side shelves
- Two storage drawers (center of cart)
- Front pullout access for LP tank, with storage area
- VGSO gas oven **included**
 - Agency-certified for outdoor use
 - Capacity—2.5 cu. ft.
 - 18-1/8"W. x 12-7/16"H. x 18-3/4"D. oven cavity
 - Electronic ignition powered by 9-volt battery
 - 20,000 BTU gas burner
 - 200 – 550° F (93 – 288° C) thermostat
 - Natural airflow bake function
 - Three heavy-duty racks/four rack positions
- Must be factory ordered for use with LP/propane gas (L) or natural gas (N)
 - LP/propane gas models equipped with high-capacity hose/regulator assembly
 - To convert a grill from natural to LP/propane, or LP/propane to gas, you must use a Viking conversion kit (see **Installation Notes & Accessories**)

Model Options

Cart & Oven

UTILITY REQUIREMENTS

GAS

Burner rating

- One bake burner, @ 20,000 BTU (5.7 kW) Nat./LP

Fixed piping installations

- Check with local gas utility company or with local codes for instructions on installing gas supply lines. All gas connections should be made by a competent technician and in accordance with local codes and ordinances. In the absence of codes, the installation must comply with the National Fuel Gas Code ANSI Z223.1.
- An installer-supplied gas shut-off valve must be installed in an easily accessible location. All installer-supplied parts must conform to local codes.
- Must be isolated from the gas supply piping system by closing its individual manual shut-off valve during any pressure testing of that system at test pressures equal to or less than 1/2 psi (3.5 kPa).

Natural gas models

- Water column pressure
 - Operating pressure—4.0" WCP

- Supply pressure of 6" – 14" WCP
- If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 7/8" (2.2 cm) flare adapter.
 - If using a Viking GSH12 flexible hose, remove the 1/2" (1.3 cm) flare adapter and attach hose to the 7/8" (2.2 cm) male flare on the regulator assembly.

LP/propane models

- Water column pressure
 - Operating pressure—10" WCP
 - Supply pressure of 11" – 14" WCP (for fixed piping installations)
 - If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 3/8" (0.95) flare adapter.

LP/propane tank installations

- Water column pressure
 - Operating pressure—10" WCP

- Includes high-capacity hose/regulator assembly for connection to a standard 5-gal./20-lb. (approx. 12" diameter/18"H.) LP/propane gas cylinder equipped with a Type 1, QCC-1 connector
 - The cylinder connection device must be compatible with the Type 1, QCC-1 connector on the outdoor cooking appliance.
 - The cylinder must be provided with a shut-off valve terminating in an LP/propane gas supply cylinder valve outlet specified.
 - The cylinder supply system must be arranged for vapor withdrawal and provided with a listed OPD (overfilling prevention device).

ELECTRICAL

- 9-volt DC battery for electronic ignition

OUTDOOR—COOKING

C⁴™ Charcoal Ceramic Cooking Capsule™ & C⁴™ Cooker Cart

Standard Features & Accessories

VCQS001 model includes

- Cooking surface is 315 sq. inches (800.1 cm), which provides plenty of grilling surface for large food items
- Commercial-type construction, design, and styling
 - Constructed from durable, 18-gauge spun stainless steel
 - Thick ceramic interior provides rigidity and sturdiness to canopy
 - Canopy is equipped with spring hinge assembly for easy opening and closing
- Precise temperature control combined with Elliptical™ airflow, which circulates heat, locks in natural flavors, and allows great cooking versatility:
 - Grill hamburgers
 - Smoke turkeys
 - Barbeque ribs
 - Sear steaks and chops
 - Bake side dishes and desserts
- Dampers at the bottom and top of grill regulate airflow
 - Open dampers to increase temperature for grilling
 - Close dampers to lower temperature for slow smoking
- Provides a natural and true flavor to foods
- Advanced ceramic interior provides maximum heat retention for faster cooking times
 - Heat reflects off ceramic interior, cooking foods from all angles while locking in flavor and juices
- Heavy-duty, porcelain-coated cooking grids
 - Virtually non-stick, easy-to-clean surface
- Canopy thermometer gives approximate readings from 150° – 750°F (65° – 399°C)
- Natural lump charcoal recommended—burns hotter and longer than regular charcoal briquettes
- Ash removal tool comes standard
- Must be installed in a cart (**sold separately**—see **Installation Notes & Accessories**)

All cart models include

- Heavy-duty, stainless steel construction
- Four large black locking casters provide maneuverability and stability, and allow unit to fit flush against wall
- C⁴™ Cooker must be installed with one of these three carts

QSC200 model includes

- Minimalist design, to take up the least amount of space

QSC300/412 models include

- Two stainless steel 16"W. x 24"D. fold-down side shelves
- Towel/utensil rod
- Large capacity storage drawer for shielding items from the elements

QSC412 model includes

- Two 15,000 BTU side burners
 - Electronic ignition powered by a 9-volt battery
 - Equipped with porcelain-coated "V" grates
- Protective stainless steel cover
- Large capacity storage door/shelf

In the absence of codes, the installation must comply with the National Fuel Gas Code ANSI Z223.1.
 - An installer-supplied gas shut-off valve must be installed in an easily accessible location. All installer-supplied parts must conform to local codes.
 - Must be isolated from the gas supply piping system by closing its individual manual shut-off valve during any pressure testing of that system at test pressures equal to or less than 1/2 psi (3.5 kPa).

Natural gas models

- Water column pressure
 - o Operating pressure—4.0" WCP

- o Supply pressure of 6" – 14" WCP
- o If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 7/8" (2.2 cm) flare adapter.
 - o If using a Viking GSH12 flexible hose, remove the 1/2" (1.3 cm) flare adapter and attach hose to the 7/8" (2.2 cm) male flare on the regulator assembly.

LP/propane models

- Water column pressure
 - o Operating pressure—10" WCP
 - o Supply pressure of 11" – 14" WCP (for fixed piping installations)
 - o If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 3/8" (0.95) flare adapter.

LP/propane tank installations

- Water column pressure
 - o Operating pressure—10" WCP
 - o Includes high-capacity hose/regulator assembly for

- connection to a standard 5-gal./20-lb. (approx. 12" diameter/18"V.H.) LP/propane gas cylinder equipped with a Type 1, QCC-1 connector
 - The cylinder connection device must be compatible with the Type 1, QCC-1 connector on the outdoor cooking appliance.
 - The cylinder must be provided with a shut-off valve terminating in an LP/propane gas supply cylinder valve outlet specified.
- The cylinder supply system must be arranged for vapor withdrawal and provided with a listed OPD (overfilling prevention device).

ELECTRICAL

- Not applicable for QSC200/300 models
- 9-volt DC battery for electronic ignition (QSC412 model (side burners))

PLUMBING

Not applicable

* For fixed pipe fuel installations, remember to place the installer-supplied gas valve in an accessible location.

Cabinet proximity

The cart can be installed directly adjacent to side cabinets. There is 0" side clearance to non-combustible and combustible surfaces. Maintain a minimum of 6" (15.2 cm) from the back of the unit to allow cooker dome to open fully.

OUTDOOR—COOKING

C⁴™ Charcoal Ceramic Cooking Capsule™ & C⁴™ Cooker Cart

✦ Installation Notes & Accessories

Vinyl Covers

- Sturdy, reinforced vinyl exterior
- felt-lined interior for protection

Model	Description	Approx. ship wt. lbs. (kg)
CV20C4-C	Cover for 20"W. C ⁴ ™ cart	5 (2.3)
CV30C4-C	Cover for 30"W. C ⁴ ™ cart	8 (3.6)

WARRANTY SUMMARY*

- One-year full warranty—complete product
- Lifetime limited warranty—rust through on all stainless steel components
- Two-year limited warranty—door hinges and drawer slides
- Ninety-day limited warranty—cosmetic parts such as glass, painted, & decorative items

* For complete warranty see *Use & Care Guide*. Warranty valid on Viking products shipped within the United States and Canada.

OUTDOOR—COOKING

Gravity Feed™ Charcoal Smokers

Standard Features

All models include

- Commercial Styling and Construction
 - Professional construction, design, and styling
 - Blends seamlessly with all Viking Outdoor products
 - Adjustable leveling legs for uneven surfaces
- May use natural lump charcoal or regular charcoal briquettes
- Versatile - precise temperature control allows the gravity feed smoker to perform a wide variety of foods including:
 - Barbeque ribs
 - Boston butts
 - Beef brisket
 - Variety of chicken
 - Tenderloin
 - Smoked turkeys
 - Seared steaks and chops
 - Pizzas
 - Baked side dishes and even desserts
- Unique design provides maximum heat retention
 - Unit is fully insulated
 - Heat reflects off interior in a convection fashion, cooking foods from all angles while locking in flavor and juices
- Removable, heavy-duty cooking racks create an optimal cooking area with maximum capacity
- A thermometer located in the center of door gives precise readings from 50° to 550°F, (10° - 288°C) allowing all foods to be cooked at required temperatures
- Damper located on firebox maintains airflow control throughout the smoker and regulates temperature
 - Open valve to increase temperature for high-temp grilling
 - Close valve to lower temperature for "low and slow" items
- Ash/wood box located inside firebox serves dual function for easy ash removal and easy wood chunk or chip loading
- All models include heavy-duty, durable locks, latches, and door hinges
- Units ship pre-coated for easy seasoning (see Use and Care Manual)
- Removable drip tray under unit captures grease for easy cleanup
- Removable rain cap for stack ships standard (must be removed during operation)

VCFS303SS

- 6.7 cubic ft. of cooking capacity
- Three heavy-duty oven racks with u-channel rails
- Four adjustable leveling legs

VCPS303SS

- 6.7 cubic ft. of cooking capacity
- Three heavy-duty oven racks with u-channel rails
- Two molden-rubber wheels with Professional handle on side of unit provides mobility
- Two adjustable leveling legs

VCFS364SS

- 9.7 cubic ft. of cooking capacity
- Four heavy-duty oven racks with u-channel rails
- Four adjustable leveling legs

OUTDOOR—COOKING

Built-In 30"W. Electric Smoker Oven & 26"W. Gas Oven

Standard Features & Accessories

Both models include

- Commercial-type construction, design, and styling
 - Built from thick sheets of rugged, non-rusting stainless steel
- Agency-certified for outdoor use
- Three heavy-duty racks

VEOS model includes

- Standard capacity—3.2 cu. ft. (90.6 lit.)
 - 23"W. (58.4 cm) x 14-7/8"H. (37.8 cm) x 15-15/16"D. (40.5 cm)
 - Can accommodate up to 40 lbs. of meat
 - Large capacity water pan holds 1.5 gallons (5.7 liters) of water for smoking
 - Drip tray can accommodate 1.5 gallons (5.7 liters) of liquid
 - Smoker box is capable of holding large quantities of wood chips or chunks of wood for smoking
- **Exclusive**—state-of-the-art plenum system mixes heat, water vapor, and smoke for perfect cooking environment
- Baking temperatures from 175°F to 400°F (80°C to 205°C)
- Separate control for smoke element
- 120-volt, thermal convection oven

- Precision louvered oven side walls for balanced oven heat
- Six rack positions
- Cook with smoke, water vapor, and heat—meats are tenderized by slow cooking with heat and moisture, resulting in less shrinkage and perfect texture
 - Roasting—slow cook prime rib or any other roast to perfection using regular oven
 - Hot and cold smoking—imparts deep smoke flavor to meats, fish, cheeses, vegetables, and more
 - Moist vegetable cooking—gentle moist cooking to retain minerals and color in vegetables. No steaming under pressure or harsh boiling
 - Baking—thermal convection oven can be used for baking everything from side dishes to desserts

VGSO model includes

- Standard capacity—2.5 cu. ft. (70.8 lit.)—18-1/8"W. (46.0 cm) x 12-1/2"H. (31.8 cm) x 18-3/4"D. (47.6 cm)
- 20,000 BTU gas oven
- 200 – 550°F (93° – 260°C) thermostat
- Natural airflow bake function, perfect

- for baking side dishes and desserts to complement items cooked on the grill
- Electronic ignition powered by 9-volt battery
- Four rack positions
 - Must be factory ordered for use with LP/propane gas (L) or natural gas (N)
 - LP/propane gas model equipped with high-capacity hose/regulator assembly
 - To convert oven from natural to LP/propane, or LP/propane to gas, you must use a Viking conversion kit (see **Installation Notes & Accessories**)

Model Options

VEOS100T
30"W. Electric
Smoker Oven

VGSO260T
26"W. Gas Oven

FINISH DETAILS

- Stainless Steel (SS)
- Brass Trim Option (BR)—nameplate, handle/brackets, and knob bezel(s). Brass components have a durable protective coating for maintenance-free normal use.

ORDERING INSTRUCTIONS

For gas oven, you must specify fuel type ("N" or "L") following model number (VGSO260TNSS). If ordering optional brass trim, specify code at end (VGSO260TNSSBR).

★ Please see Installation Notes and Accessories for important installation information, including racks and gas connection kit.

Note: The use of cabinets for storage above the oven may result in a potential burn hazard. Combustible items may ignite, and metallic items may become hot and cause burns. If cabinet storage is to be provided, the risk can be reduced by installing a hood that projects horizontally a minimum of 5" (12.7 cm) beyond the bottom of the cabinets. Do not obstruct the flow of combustion and ventilation air.

UTILITY REQUIREMENTS

GAS (VGSO)

Bake burner rating

- Two burners, each 20,000 BTU (5.9 kW) Nat./LP
- Can field convert to LP/propane (see **Installation Notes & Accessories** for kit)

Fixed piping installations

- o Check with local gas utility company or with local codes for instructions on installing gas supply lines. All gas connections should be made by a competent technician and in accordance with local codes and or ordinances. In the absence of codes, the installation must comply with the National Fuel Gas Code ANSI Z223.1.
- o An installer-supplied gas shut-off valve must be installed in an easily accessible location. All installer-supplied parts must conform to local codes.
- o Must be isolated from the gas supply piping system by closing its individual manual shut-off valve during any pressure testing of that system at test pressures equal to or less than 1/2 psi (3.5 kPa).

Natural gas models

- Water column pressure
 - o Operating pressure—4.0" WCP
 - o Supply pressure of 6" – 14" WCP

- o If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 7/8" (2.2 cm) flare adapter.
- o If using a Viking GSH12 flexible hose, remove the 1/2" (1.3 cm) flare adapter and attach hose to the 7/8" (2.2 cm) male flare on the regulator assembly.

LP/propane models

- Water column pressure
 - o Operating pressure—10" WCP
 - o Supply pressure of 11" – 14" WCP (for fixed piping installations)
 - o If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 3/8" (0.95) flare adapter.

LP/propane tank installations

- Water column pressure
 - o Operating pressure—10" WCP
- Includes high-capacity hose/regulator assembly for connection to a standard 5-gal./20-lb. (approx. 12" diameter/18"H.) LP/propane gas cylinder equipped with a Type 1, QCC-1 connector

- o The cylinder connection device must be compatible with the Type 1, QCC-1 connector on the outdoor
- o The cylinder must be provided with a shut-off valve terminating in an LP/propane gas supply cylinder valve outlet specified.
- o The cylinder supply system must be arranged for vapor withdrawal and provided with a listed OPD (overfilling prevention device).

ELECTRICAL

Smoker element rating

- One element 300 watts (2.7 amps)

Cook element rating

- Two (elements, each 750 watts (6.8 amps))
- VEOS
 - o 120V/60 Hz, 30-amp
 - o 4' (121.9 cm) 3-wire cord with grounded 3-prong plug
 - o Max. amp usage—17.7 (1,950 watts)
- VGSO
 - o 9-volt battery for ignition

OUTDOOR—COOKING

Built-In Gas Side Burner, 24"W. Rangetop, Wok/Cooker, & TruSear™ Infrared Grillers

Standard Features & Accessories

All models include

- Push-button electronic ignition (battery-powered) provides a positive, consistent, and continuous spark for easy lighting
- Large, easy-to-read knob(s) with childproof, push-to-turn safety feature
- For built-in installation only (can be installed adjacent to or separately from grills)
- Heavy-duty commercial-type size, construction (stainless steel), design, and styling
 - Heavy-duty porcelain-coated grates or grids (removable) prevent food sticking and make cleanup easy
- Full-width, pull-out, removable drip tray with full-length handle, and removable grease pan
 - Stainless steel ball-bearing roller glides allow drip tray to pull out

easily and remain level when fully extended

- Stainless steel landing ledge with solid, welded, seamless finish
- Standard stainless steel island trim and countertop side trim
- Includes protective stainless steel cover with handle provides protection from the elements
- Must specify fuel type—natural gas or LP/propane

VGSB152T (Side Burner) model includes

- Two 15,000 BTU burners
- Removable stainless steel grate support with separately removable stainless steel burner bowls for easy cleanup
- "V" grates provide continuous front-to-rear surface for easy movement of large stock pots

VGRT244T (Rangetop) model includes

- Four 15,000 BTU burners
- Removable stainless steel grate support with separately removable stainless steel burner bowls for easy cleanup
- "V" grates provide continuous front-to-rear surface for easy movement of large stock pots

VGWT241T (24"W. Wok/Cooker) model includes

- Agency-certified for outdoor use
- 27,500 BTU burner for high-heat/fast cooking
- Two-piece grate
- **Exclusive**—agency-approved center trivet converts burner grate for use with large stock pots
- 20" steel wok with lid included

VGSB152T/VGIB151T

VGRT244T/VGWT241T/VGIB242T

15"W. SIDEBURNERS & GRILLERS

1. Maintain a minimum of 6" (15.2 cm) from the sides of the side burners (above the cooking surface) to adjacent vertical combustible construction. Do not install under overhead, unprotected combustible construction.
2. Allow at least 6" side clearance to non-combustible construction above the cooking surface for counter space.
3. When choosing a suitable location, consider factors such as wind exposure, proximity to traffic paths, keeping gas supply lines as short as possible. Install only in a well-ventilated area. Never install in a building, garage, breezeway, shed, or other such fully enclosed areas.

24"W. RANGETOP/WOK/GRILLER

PROXIMITY TO CABINET INSTALLATION

The unit may be installed directly adjacent to the existing base cabinets. The side trim must be 3/8" (0.95 cm) above the adjacent base cabinet countertop. There is a 0" side and rear clearance to non-combustible surfaces. The unit cannot be installed directly adjacent to combustible sidewalls. There must be a minimum of 6" (15.2 cm) side and rear clearance from the unit to such combustible surfaces. This unit cannot be placed under an overhead which is unprotected and combustible.

- VGIB242T—Two infrared grill burners, each @ 21,500 BTU (6.3 kW) Nat./20,000 BTU (5.9 kW) LP

Fixed piping installations

- o Check with local gas utility company or with local codes for instructions on installing gas supply lines. All gas connections should be made by a competent technician and in accordance with local codes and ordinances. In the absence of codes, the installation must comply with the National Fuel Gas Code ANSI Z223.1.
- o An installer-supplied gas shut-off valve must be installed in an easily accessible location. All installer-supplied parts must conform to local codes.
- o Must be isolated from the gas supply piping system by closing its individual manual

shut-off valve during any pressure testing of that system at test pressures equal to or less than 1/2 psi (3.5 kPa).

Natural gas models (and LP/propane, for VGWT only)

- o Water column pressure
 - Operating pressure—4.0" WCP
 - Supply pressure of 6" – 14" WCP
 - If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- o Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 7/8" (2.2 cm) flare adapter.
- o If using a Viking GSH12 flexible hose, remove the 1/2" (1.3 cm) flare adapter and attach hose to the 7/8" (2.2 cm) male flare on the regulator assembly.

LP/propane models

- o Water column pressure
 - Operating pressure—10" WCP
 - Supply pressure of 11" – 14" WCP (for fixed piping installations)
 - If incoming pressure exceeds 14" WCP, a step-down regulator is required.
- o Accepts standard residential 1/2" (1.3 cm) ID gas service line; 1/2" (1.3 cm) NPT male with 3/8" (0.95) flare adapter.

LP/propane tank installations

- o Water column pressure
 - Operating pressure—10" WCP
- o Includes high-capacity hose/regulator assembly for connection to a standard 5-gal./20-lb. (approx. 12" diameter/18"H.) LP/propane gas cylinder equipped with a Type 1, QCC-1 connector
- The cylinder connection device must be compatible with the Type 1, QCC-1 connector on the outdoor cooking appliance.
- The cylinder must be provided with a shut-off valve terminating in an LP/propane gas supply cylinder valve outlet specified.
- The cylinder supply system must be arranged for vapor withdrawal and provided with a listed OPD (overfilling prevention device).

ELECTRICAL

- 9-volt DC battery for electronic ignition (not included?)
- Max. amp usage
 - o VGWT—0.08

Built-In Gas Side Burner, 24"W. Rangetop, Wok/Cooker, & TruSear™ Infrared Grillers

✦ Installation Notes & Accessories

Gas Conversion Kits

- For field conversions
- Conversions should be performed only by an authorized technician
- Kit includes all hardware necessary for conversion

Model	Description	Approx. ship wt. lbs. (kg)
TNK-VGBO	Conversion kit—LP/propane to natural (for side burner and rangetop)	3 (1.2)
TLPK-VGBO	Conversion kit—natural to LP/propane (for side burner and rangetop)	3 (1.2)
TNK-VGIQ	Conversion kit—LP/propane to natural (for grillers)	3 (1.2)
TLPK-VGIQ	Conversion kit—natural to LP/propane (for grillers)	3 (1.2)

12' Natural Gas Supply Hose & Quick Disconnect Assembly

- For use with natural gas fuel supply
- For outdoor use only with portable appliances that may be moved for convenience of operation
- Valve in the socket automatically allows full gas flow when the plug is connected, and prevents gas flow when the plug is disconnected
- Kit includes quick disconnect socket with female pipe threads, plug/hose assembly, and adapter to mate with female fitting on the grill (remove for mating hose to male fittings)

Model	Description	Approx. ship wt. lbs. (kg)
GSH12	Supply hose/disconnect assembly	3 (1.4)

Stainless Steel Cabinetry-Bases

- Stainless Steel (SS)
- Must be installed with locally supplied countertop
- See individual product pages (storage section) for more information and additional specifications on these multi-use bases

Model	Description	Approx. ship wt. lbs. (kg)
VBBO1601	Base (for 15"W. side burners or 15"W. TruSear griller)	104 (47.2)
VBBO2602	Base (for wok/cooker, 24"W. TruSear griller, or 24"W. rangetop)	160 (72.6)

Compliance Information

WARRANTY SUMMARY*

- One-year full warranty—complete product
- Lifetime limited warranty—rust through on all stainless steel components
- Five-year limited warranty—grill burners (VGSB & VGWT models) or infrared burner (VGIB models)
- Ninety-day limited warranty—cosmetic parts such as glass, painted, and decorative items

* For complete warranty see *Use & Care Guide*. Warranty valid on Viking products shipped within the United States and Canada.

OUTDOOR—COOKING

Built-In Electric 27"/30"/36" Warming Drawer

Standard Features & Accessories

All models include

- Agency-certified for outdoor use
- Commercial-type size and styling
 - Heavy-duty drawer handle and perimeter trim
 - Stainless steel roller-bearing glides for smooth drawer operation
 - Large, easy-to-read knob with bezel
- **Exclusive**—largest drawer pan available
 - 27"W. models—1.4 cu. ft.
 - 30"W. models—1.6 cu. ft.
 - 36"W. models—2.0 cu. ft.
 - **Exclusive**—Only 36"W. warming drawer available
- Temperature settings from 90°F – 250°F
- Low setting is ideal for warming

- plates or proofing bread
- High setting keeps soups and sauces piping hot
- Powerful heating element
 - VEWD173T—425 watts
 - VEWD103T—450 watts
 - VEWD163T—550 watts
- Power "on" indicator light cycles on and off with heating element
- Versatile moisture-selector control regulates the amount of moisture released from the drawer
 - Adjustments can be made without opening the drawer and affecting the interior temperature and humidity

- Open vent to keep foods crisp
- Close vent to keep foods moist
- **Exclusive**—two stainless steel half-sized low racks and moisture cup (both removable)
 - Racks have slots for heat distribution
 - Racks cover entire bottom of pan for the largest loads or can be used for only half coverage by removing one section
 - Exclusive—moisture cup holds water to increase interior humidity
- Entire drawer removes for easy cleaning
- Power on indicator light cycles on and off with heating element

OUTDOOR—VENTILATION

Built-In 18"H. Wall Hood

Standard Features & Accessories

All models include

- 27"D.
- Agency-certified for outdoor use
 - Keeps outdoor air fresh
 - Designed and constructed for damp environments
- Canopy only—must also purchase interior or exterior ventilator kit, **sold separately** (see **Installation Notes & Accessories** for recommended Viking ventilators)
- Heavy-duty construction; professional-type size, design, and styling
 - Virtually seamless stainless steel design with no visible screws
- Heat sensor turns the ventilator on full power when cooking temperatures reach uncomfortable levels
- Variable speed ventilator controls
 - Separate controls for on/off and speed control
- Easy cleanup
 - Commercial-type baffle filter system efficiently removes grease and heated vapors from the air; especially designed for use with commercial-type products
 - Design of low-profile filter system means less interior hood space to be cleaned
 - Canopy interior is completely lined in stainless steel for increased rigidity, seamless appearance, and easy cleaning
 - Separate removable trough catches liquefied grease
- 50-watt halogen lights with dimmer control
 - Power switch and dimmer control are separate, allowing you to leave dimmer at favorite position

Model Options

VWH3678T
36"W. Hood (for 30"W. grills)

VWH4878T
48"W. Hood (for 41"W. grills)

VWH6078T
60"W. Hood (for 53"W. grills)

FINISH DETAILS FOR ALL MODELS

- Stainless Steel (SS)
- Accessory Rail Option—Front of hood (Must be ordered factory-installed)
 - Stainless Steel/Chrome (CR)—Stainless steel rail with chrome supports/brackets and hooks (included).
 - Brass Trim Option (BR)—Brass nameplate, rail, supports/brackets, and hooks (included). Brass components have a durable protective coating for maintenance-free normal use.

ORDERING INSTRUCTIONS

If ordering optional decorative rail, specify code at end (VWH3678T-**CR**).

Dimensions & Specifications

CLEARANCE DIMENSIONS

Note: Viking Outdoor hoods must be installed in a covered, **non-enclosed** area, and should be protected from the elements as much as possible.

The bottom of the hood should be 30" (76.2 cm) to 36" (91.4 cm) above the grill surface. The hood should be installed 4-1/2" (11.4 cm) plus the distance between the back trim and surface from the back wall. (Note: There is a 3" minimum clearance from the back trim to non-combustible surfaces, and a 24" minimum to combustible surfaces.) This will require building the hood out from the wall. Any combustible material used for this purpose must be covered with locally-supplied stainless steel. Viking also recommends using a backsplash.

OUTDOOR—VENTILATION

Built-In 18"H. Wall Hood

Installation Requirements

VWH3678T
36"W. Hood (for 30"W. grills)

VWH4878T
48"W. Hood (for 41"W. grills)

VWH6078T
60"W. Hood (for 53"W. grills)

UTILITY REQUIREMENTS

Proper installation/ ducting is extremely important to ensure maximum performance. Use a qualified and trained installer.

DUCTING

- Check with a qualified and trained installer or local codes for makeup air requirements, if any.
- Max. duct run
 - o For 1,200 CFM—50' (15.2 m)
 - o For 1,500 CFM—75' (22.9 m)
- o Duct run length is for general reference only; for longer duct runs, increase duct size and contact a qualified and trained installer.
- o The 1,500 CFM ventilator should be used with longer duct runs.
- o Straight runs and gradual turns are best; for example, each 90° elbow is equivalent to 5 – 10 feet (1.52 – 3.05 cm) of straight run.

- 10" duct run for 900 – 1500 CFM
 - o Never use flexible duct; it creates back pressure/air turbulence and greatly reduces performance.

ELECTRICAL

- Hardwire direct with two-wire with ground
- 120 VAC/60 Hz

PLUMBING

DESIGNER

OUTDOOR—REFRIGERATION

Undercounter/Freestanding 24" W. Wine Cellar

Standard Features & Accessories

All models include:

- Agency-certified for outdoor use
 - A stainless steel exterior cabinet surrounds the unit and forms a water-resistant seal
 - Insulated electrical terminals, sealed electrical contacts, and a water-resistant thermostat provide optimal performance in all weather elements
- Normal operating range between 110°F (43.4°C) and 40°F (4.4°C) (Viking recommends that units be shut off in temperatures outside these limits)
- Hidden touchpad electronic controls with digital temperature readout
 - Inside temperature can be adjusted from 40 – 65°F
 - TruProtect™ system signals if door is left open or if temperature is out of set range
- Sabbath mode disables audible tones, LED display and lights
- Temperature can be displayed in either Fahrenheit or Celsius
- Capacity—54 bottles
- Six wire shelves cradle bottles horizontally to keep corks moist
 - Shelves are coated to reduce vibration and hold bottles snugly in place
 - Roller rack shelves glide in and out for easy access to stored bottles
 - Locks on shelf glides prevents shelves from being removed in inadvertently
 - Shelves can be removed to store magnum or larger bottles
- Ultraviolet-resistant tempered glass and black interior protects wine from harmful light
- Maple wood facings provide additional ultraviolet protection
- Low-intensity lighting displays wine with minimal heat and light output
- Keyed door lock provides protection for stored wines
- Low-E argon-filled glass doors
- Install as undercounter or freestanding unit
- Must be ordered right or left hinge. (As you face unit, RIGHT has hinge on right side and handle on left side; LEFT has hinge on left side and handle on right side.)

OUTDOOR—REFRIGERATION

Undercounter/Freestanding 15"W. Ice Machine

Standard Features & Accessories

Model includes

- Bin capacity—35 lbs.
- Agency-certified for outdoor use
 - Insulated electrical terminals, sealed electrical contacts, and water-resistant thermostat
 - Permanently lubricated sealed compressor and pump ensure long life and professional performance
- Heavy-duty commercial-type construction, design, and styling
 - Stainless steel exterior cabinet surrounds unit and forms a water-resistant seal
 - Stainless steel kickplate
 - Stainless steel-covered ice bin front
- 3/4" cube thickness
- Produces up to 35 lbs. of ice per day
- Operating range between 45°F (7.2°C) and 110°F (43°C)
- Heavy-duty ice scoop included
- Stainless steel ice cutter
- Draining process automatically removes old ice to ensure a constant supply of fresh ice
- Equipped with cleaning mode
- Adjustable leveling legs
- Install as undercounter or freestanding unit
- Can be installed in existing cutouts with little or no cabinetry alterations
- Must be ordered right or left hinge (As you face unit, RIGHT has hinge on right side and handle on left side; LEFT has hinge on left side and handle on right side)

Model Options

VUIM150T
Outdoor Ice Machine

FINISH DETAILS

- Stainless Steel (SS)
- Brass Trim Option (BR)—nameplate and handle/brackets. Brass components have a durable protective coating for maintenance-free normal use.

ORDERING INSTRUCTIONS

First specify model number, followed by hinge preference ("R" for right or "L" for left)—(VUIM150TRSS). If ordering optional brass trim, specify code at end (VUIM150TRSSBR).

OUTDOOR—REFRESHMENT

24"W. Built-In & 41"W. Built-In/Portable Refreshment Center

Standard Features & Accessories

All models include

- Agency-certified for outdoor use
- High shelf ideal for storing various shapes of serving glasses and stemware.
 - Guardrail keeps glass from falling off backside.
- Commercial-style appearance/design
- Coldwater sink
 - Professional-style faucet
 - Sink can be plugged and used for bottle bath
- Condiment trays—four shallow stainless steel 6"W. x 4"D. bins are dishwasher-safe
- Cutting board and wire grate slide within each other to give you access to the sink/bottle bath at any time

- Insulated bottle bath located under countertop holds large amounts of ice, keeping drinks cold
 - Speed rail holds five standard-sized wine or liquor bottles
 - Bottle opener with cap catch
- VBRC/VPRC410 models include**
- Bottle bath holds 2 cases of drinks
 - Additional large bin behind sink can hold or "ice" your juice mix, wine bottles, creams, etc. (capacity for 2-liter and 1-gallon containers)
 - Insulated bin (removable) for fresh ice supply slides toward back of unit for access to bottle bath
 - Large-capacity storage drawer protects items against the elements

- Bin can be removed for easy cleanup, and has the same dimensions as the fresh ice bin
- VPRC410 model includes**
- Pullout trash container (removable)
 - One 16" x 24" fold-down side shelf (on left, as you face unit)
 - One 41"W. x 9"D. fold-down shelf in back provides additional surface area
 - Four heavy duty casters provide maneuverability as well as stability
 - Wastewater collection container
